

Casa de Ramana

Rehabilitation Center

November 26, 2020

To Our Residents, Family Members and staff:

We want to inform you that we have received confirmation that one outside vendor that was last in our center on November 23, 2020 has tested positive for COVID-19. We are continuing with our implemented re-emergence protocols and will continue testing 100% of staff and residents weekly until 14 days with no new positives.

Casa de Ramana Rehabilitation Nursing Center is staying in very close communication with local and state health officials to ensure we are taking all the appropriate steps.

We will contact you if your loved one is suspected or diagnosed with COVID-19.

We know this is a difficult time for everyone. We will continue to provide you with updates as they become available. **Our website is updated daily or more as needed. Please visit www.casa-rehab.com/coronavirus-community-updates for details.**

Sincerely,

Cynthia Farley

Cynthia Farley, Director of Nursing
