

Casa de Ramana

Rehabilitation Center

February 4, 2021

Dear Family Members, Friends, Residents and Staff-

As part of our weekly update, we would like to inform you that we have one resident still testing positive for COVID-19.

We are still not taking any new admissions (other than if someone goes out to the hospital and needs to return to us) and we will not admit to the center until such time that the Department of Public Health gives us clearance that we are able to resume admissions to our center. We continue to take steps to eliminate COVID from our center: testing of both staff and residents, proper PPE use, infection control practices as per DPH guidance and moving individuals into isolation if they do test positive.

We will continue to test all staff and residents. Once we are COVID free for 14 days, we will be able to resume in-person visits. Until that time we encourage you to reach out to Karen Curtis, our Life Enrichment Director at (508-872-8801 x 2330) or kcurtis@casa-rehab.com or reach out to Jacilene Silva, our Alzheimer's Assistant Program Director at 508-872-8801 x2340 or email jsilva@casa-rehab.com to coordinate a "virtual visit"- Facetime, Zoom or Skype.

We are well staffed, and we have plenty of PPE. We also have testing available to us and I know we will get through this. If we need additional assistance or support, we will reach out the department of public health to provide whatever assistance is needed. Our last Covid vaccine clinic will be Monday 2/8/21. I encourage you to check our website www.casa-rehab.com daily as it is updated daily.

I know this is very difficult for you but please know we will ensure your loved one is well cared for. If you have any questions please feel free to contact me or Marilou Lagman, our new Director of Nursing at 508-872-8801.

Thank you for your ongoing support.

Sincerely,

Stacey Brady

Administrator
